Thank you for your purchase. I created this book as an easy resource to explain the idea of being proactive to my kindergarten students.

For this resource, I’ve included a big Teacher Edition of the book and smaller books that can easily be printed for each child to take home. At the end, I also included a version missing the word “can.” To integrate spelling/word study into this book, you can have students write the missing word on each page. The student versions include 2 choices for the last page. You can either use the pre-printed pictures on the last page, or students can draw a picture of what they want to be when they grow up.

Please let me know if you have any questions and follow my blog for more ideas on teaching.
